

SCHOOL IMPROVEMENT PLAN 2025-26

QUALITY OF EDUCATION

Deliver well-planned, high-quality, engaging, and tailored teaching that is both academically rigorous and emotionally responsive. Ensure that all learning is personalised to address each student's individual needs, closing knowledge gaps and fostering meaningful progress. Through creative and targeted approaches, support every child in reaching their full potential.

STUDENT PROGRESS AND ENGAGEMENT

Enhance and structure our intervention programme to ensure that all students have consistent access to weekly, targeted support. Establish a clear framework that identifies needs early, allocate appropriate interventions, and monitors engagement and progress to maximise the impact for every student.

PARENTAL AND COMMUNITY ENGAGEMENT

Strengthen relationships with families and external agencies to support student progress, attendance and punctuality.

SAFEGUARDING AND WELLBEING

Ensure that all students are safe and feel secure in school by embedding a strong culture of safeguarding. This includes maintaining robust, regularly reviewed policies and procedures; ensuring all staff are well-trained and confident in their responsibilities; and creating a school environment where students know how to seek help and feel confident that concerns will be acted upon swiftly and appropriately.

LEADERSHIP AND MANAGEMENT

Strengthen strategic leadership and governance through Accountability Partners.
