WHO IS IN TOTO ED FOR?

In Toto Ed is for young people who may need that little bit of extra support with their education, who perhaps haven't been able to thrive at mainstream institutions.

Whether they have SEN, ADHD, ASD, dyslexia, have emotional support needs or suffer from anxiety, mental health issues, physical disabilities – or need little to no support at all – we will create a positive, encouraging and safe environment for them to learn.

A TAILORED PATHWAY

We put together personalised education plans for our young people and deliver lessons to very small classes, as well as on a 1-to-1 basis, depending on their needs.

We like to meet a young person when they apply or are referred to us, and because everyone is so different and have such different needs, we speak with that young person and their parents or carers to work out what they want to achieve, and the best way for them to achieve it.

OUR UNIQUE OFFERING

Unlike our mainstream counterparts, at In Toto Ed we teach in small groups with experienced, supportive staff who are trained to understand the challenges our students can face.

Most mainstream institutions deliver fixed courses via fixed schedules, to classes of fixed sizes. We provide the flexibility and focus on the individual that is often essential to our young people's wellbeing and ability to thrive.

INSPIRATIONAL TEACHING

At In Toto Ed we are privileged to have an amazing team of highly-qualified, diversely-experienced, dedicated and caring staff across teaching, mentoring and operations.

With over a lifetime's collective experience between us all in the education and SEN sectors, we strive to deliver a personalised and unique alternative to mainstream school and college.
